

## Get involved in LightingEurope *Don't be left in the dark!*

Dear interested company representative

First, we would like to thank you for your interest in LightingEurope, the industry association that represents the lighting industry in Europe. We like to think that the more we are, the better we can defend the interests of our members on the hard-core policy issues of the lighting industry (Single Lighting Regulation, Eco-Design, energy efficiency, ban on hazardous materials, statistics, market surveillance, etc.).

In the coming decade, the development of new lighting systems will enable the properties of natural lighting to increase the quality of life in many daily situations. This will be the case in education, in leisure time, in healthcare, in elderly homes or in business. The graph below demonstrates the increasing growth in value of light to society. Together with the European legislators, LightingEurope aims for more intelligent lighting, increased renovation rates to sustainable lighting, Human Centric Lighting, and circular economy thinking.

## Working Groups (WGs)

WGs are essential in our mission, as they are acting as forums of debate between industry experts, industry associations, and our policy experts. They analyse burning lighting industry issues and their output allow us to operate at the frontline of EU policy-making. Unsurprisingly, their output allows us to operate at the frontline of EU policy-making. As such, our WGs are the real entry points to the Brussels arena and merit your company's full participation!

For your convenience, you will find below an overview of LightingEurope WGs' structure (for a comprehensive overview, see the attached 'Streams' document), in line with the objectives established in our Strategic Roadmap 2025.

## Let LightingEurope and its team make the difference for your company!

### *How to become a member*

We encourage you to take the following steps:

1. Read the Statutes and Bylaws at the bottom of the website
2. Fill in the membership application form on the website\*

The procedure will then look as following:

3. Application will be discussed in the next Executive Board
4. General Assembly will approve EB decision

\*Our **membership fee** is calculated according to the turnover of the company both in Europe and globally which is translated into 'fee points' (please find the full explanation in Annex 1 and 2 of the 'Bylaws' document).

#### Fees and Voting Rights of Member Companies

		European Turnover*															
		0-250	>2-10	>10-50	>50-200	>200-350	>350-500	>500-650	>650-800	>800-950	>950-1,100	>1,100-1,250	>1,250-1,400	>1,400-1,550	>1,550-1,700	>1,700	
Global Turnover*	0-250	Fee or fee points	1	3	6	10	20										
	>250	Votes	1	1	1	1	2										
		Fee points	20	20	20	30	30	30	40	50	60	70	80	90	100	110	120
		Votes	2	2	2	3	3	3	4	5	6	7	8	9	10	11	12

\* in million Euro

1 fee point = €1.850,-

*Example:* if your company has a European turnover of 70 million euro and a global turnover of less than 250 million euro, the fee will be: 10 fee points × 1850 euro = 18 500 euro/year. Moreover, your company will have 3 votes.

**We hope that this has been enlightening!**
