

LIGHTINGEUROPE
THE VOICE OF THE LIGHTING INDUSTRY

Get involved in LightingEurope
Don't be left in the dark!

Who we are

LightingEurope is the industry association that represents the lighting industry in Europe. We are the voice of more than 1000 lighting companies who employ more than 100000 people over Europe. Our daily mission is to advocate and defend the lighting industry in Brussels while reconciling it with ongoing EU policy aims. In doing so, we are dedicated to promoting efficient lighting practices for the benefit of the global environment, human comfort and the health and safety of consumers.

What we do

Our unique strength resides in bringing together leading industry actors with local and European policy experts in so called Working Groups (WG). These WGs are essential in our mission as they crystalize and often merge different viewpoints on burning lighting industry issues, hence paving the way for concrete policy steps. Their output allows us to operate at the frontline of EU policy-making. Our WGs are nothing short of real entry points to the Brussels arena and merit your full participation!

Team

We focus on the Future of Light

The future of lighting is here. We can expect innovations that go far beyond energy efficiency, such as innovations on smart lighting and digitalization - often driven by SMEs. The current focus of LightingEurope is hence clustered around:

Beyond

Covering hot topics like Human Centric Lighting and Smart Lighting

Energy & Environment

Structured into Energy Efficiency, Lighting Systems, Emergency Lighting and also Materials and Collection & Recycling

Growth

Especially Market Surveillance, Standardization, Trends and Statistics

Our members

Structure

LightingEurope has both national associations and lighting companies as members.

All members have a seat in the General Assembly, which takes all major decisions while priorities and strategies are determined by the Executive Board.

The final hands-on work is done in our famous Working Groups; As their membership is open to all members, they constitute the heart and soul of LightingEurope!

“ *The lighting industry is operating in a radically changing landscape. LightingEurope is fulfilling an essential role in creating optimum market conditions with equal level playing fields in ensuring that Europe remains a leading force in lighting.* ”

Massimiliano Guzzini,
Vice President, iGuzzini
Vice-President Assil (Italian
Lighting Association)

What characterizes LightingEurope

Benefits that will make the difference for your business

Connecting
policymakers and industry
