Press Release

## **LightingEurope Welcomes TRILUX as Newest Member**

LightingEurope is pleased to announce that TRILUX has joined as our newest member.

The TRILUX corporate group develops efficient light for all application sectors using many years of expertise, international experience and a passionate devotion. TRILUX represents innovative and sustainable solutions, ranging from state-of-the-art light and control technology to special luminaires with high sophistication in terms of technology and design. The TRILUX Group features nine production sites in Europe and Asia as well as 26 global subsidiaries. The luminaire business sector consists of TRILUX, TRILUX Medical, Oktalite and Zalux. BAG, ICT and watt24 form the electronic business sector. The company employs over 5,000 employees, with headquarters at Arnsberg in Germany.

Says, Mr. Diederik de Stoppelaar, Secretary General of LightingEurope, "TRILUX is a leading European brand and Dietmar Zembrot has been a strong presence in our organization since its inception. We look forward to their contributions and leadership through their direct membership and participation. As we move forward into new worlds of lighting, we see their membership as both strategic and symbolic of new directions forward."

Speaking of their new membership, Mr. Dietmar Zembrot, Management Director of Trilux states, "TRILUX has been involved in the founding and creation of LightingEurope. With this experience, the value of direct membership is very clear to us and we are proud to become the newest direct member."

LightingEurope is an industry association of 30 European lighting manufacturers, national associations, and companies producing materials. LightingEurope members represent over 1,000 European companies, a majority of which are SMEs; a total workforce of over 100,000 people in Europe; and an annual turnover estimated to exceed 20 billion euros. LightingEurope is dedicated to promoting efficient lighting practices for the benefit of the global environment, human comfort, and the health and safety of consumers.
