

LightingEurope's Political Manifesto 2024–2029

Teresa Selvaggio
Director of Public Affairs

Why a Political Manifesto?

European Parliament elections: 6–9 June 2024

ENFORCEMENT OF RULES, ESPECIALLY ONLINE

- ❑ **Full enforcement** of existing rules.
- ❑ Further Cooperation and alignment between MSAs and European Commission. **An EU agency for enforcement** should be considered.
- ❑ More **market surveillance cooperation projects between the industry and MSAs.**
- ❑ **Revision of the Digital Services Act** to address the liability for product compliance when there is no economic operator in the EU.

SOUND RULES

- ❑ If **New Rules** are needed, they should be:
 - evidence-based, simple, easy to understand and to be applied;
 - based on socio-economic and environmental impact assessments;
 - easy to enforce;
 - attached to specific targets on market surveillance, and funding to MSAs.

SUSTAINABILITY OF LIGHTING PRODUCTS

- ❑ In the coming Ecodesign **lighting regulation**: the introduction of information requirements on **lifetime of the key components of luminaires** (light source and control gear).
- ❑ A **sector-differentiated approach** that is based on detailed socio-economic impact and **application-specific risk assessments** in regard to upcoming **EU chemicals policy and legislation**.

THE VALUE OF LIGHT

- ❑ All EU legislation on buildings should:
 - include **requirements for a high indoor environmental quality**, including **better lighting**,
 - mandate **automatic lighting control systems**.
- ❑ Energy efficient, smart and connected streetlights in the objectives of **future Cohesion Funds**.
- ❑ Revise the **Workplaces Directive** to ensure a safe and comfortable environment.
- ❑ An EU approach to address **light at night**.

A STRONG EU INDUSTRY

- ❑ **Less red tape** and support to **SMEs**.
- ❑ An EU innovation agenda based on **technology openness** and **innovative leadership**.
- ❑ **Standards** and their harmonization.
- ❑ **Skills** development & transfer among generations.
