

**LIGHTINGEUROPE**  
THE VOICE OF THE LIGHTING INDUSTRY

Press Release

## **LightingEurope publishes Visual Guide on Emergency Lighting**

Brussels, 15 January 2025 - LightingEurope launches a visual guide to provide a complete overview of the correct installation and maintenance of emergency lighting, referencing the latest standards and relevant legislation.

The aim of this visual guide is to inform any interested reader about the specifics of emergency lighting applications and also to support the compliant installation, operation and maintenance of emergency lighting equipment in accordance with relevant standards and legislation.

Elena Scaroni, Secretary General of LightingEurope, said: "Emergency lighting is essential for creating a safer building environment by facilitating safe evacuation in case of emergency, enabling safe movement of building occupants and helping to safely shut down potentially hazardous processes. LightingEurope is proud to publish a comprehensive guide to a technology that is fundamental to saving lives".

Simon Wessels, Policy Officer at LightingEurope, added: "This guide has been developed with the help of LightingEurope members who are experts on the subject. We are grateful to be able to use their expertise in this field to produce such a useful document that can help every building and lighting professional to access the fascinating world of emergency lighting".

### **How to Access Your Copy**

The Visual Guide is freely available for download on the LightingEurope website [here](#)

### **About LightingEurope**

LightingEurope is the voice of the lighting industry, based in Brussels and representing 32 companies and national associations. Together these members account for over 1,000 European companies, a majority of which are small or medium-sized. They represent a total European workforce of over 100,000 people and an annual turnover exceeding 20 billion euro. LightingEurope is committed to promoting efficient lighting that benefits human comfort, safety and well-being, and the environment. LightingEurope advocates a positive business and regulatory environment to foster fair competition and growth for the European lighting industry.
