

BETTER ENFORCEMENT

to ensure safe quality products for users and a level playing field for industry

DELIVER THE VALUE OF LIGHTING

with intelligent lighting systems and human centric lighting

IMPLEMENT CIRCULAR ECONOMY THINKING

support industry and shape rules that reflect the particularities of lighting

SOUND RULES

shape simple rules, easy to understand, apply and enforce, and a positive business environment in Europe

DELIVERING THE VALUE OF LIGHTING

HUMAN CENTRIC LIGHTING

Light is the most important **timer** for our biological clock

We need the **right light** for our activities at the **right place** at the **right time**

LED lifetime =
50 000 hrs
i.e. 11.4 years for 12 hours/day usage

81% light sources will be **LED** technology in **2030**
Share in 2015: 7%

Energy savings from lighting products:
125 TWh/year in 2030

EEPliant 1 tested 86 LED lamps.
Only 14% were fully compliant

The LightingEurope lighthouse helps EU regulators navigate the diversity and complexity of the lighting industry and signals a course that will deliver growth for Europe's industry and the value of lighting for people.

LightingEurope is the voice of the lighting industry, based in Brussels and representing 34 companies and national associations.

These account for

1,000 European companies, majority are small or medium-sized

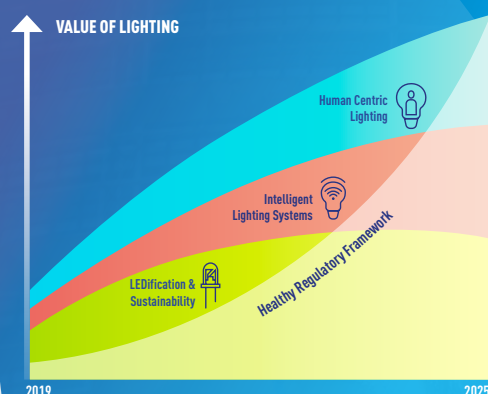

20 billion € annual turnover

over **100,000** people

LightingEurope is committed to promoting efficient lighting that benefits human comfort, safety and well-being, and the environment.

LightingEurope advocates a positive business and regulatory environment to foster fair competition and growth for the European lighting industry.
