

Brussels, 26 February 2020

Statement

High demand for webinars on Ecodesign and Energy Labelling Regulations

LightingEurope offers another webinar to explain the consequences of the Ecodesign and Energy Labelling Regulations on 5 March. The first webinar on 28 February became fully booked in short time. Interested companies need to contact their national lighting association to register.

On 5 December 2019, LightingEurope published its [Guidelines](#) to the new Regulations (EU) 2019/2020 on ecodesign requirements for lighting and (EU) 2019/2015 on energy labelling for lighting. In order to assist members, LightingEurope is organising a webinar on 28 February and will go through the highlights of the Guidelines.

Due to popular demand a second session is now planned for 5 March. The program of the webinar will again be the following

- Overview of the two Regulations
- Main requirements of the Ecodesign Regulation
- Questions and answers from the participants
- Main requirements of the Energy Labelling Regulation
- Questions and Answers

Interested companies can register via their national lighting associations on a first come/first serve principle.

About LightingEurope

LightingEurope is the voice of the lighting industry, based in Brussels and representing 33 companies and national associations. Together these members account for over 1,000 European companies, a majority of which are small or medium-sized. They represent a total European workforce of over 100,000 people and an annual turnover exceeding 20 billion euro. LightingEurope is committed to promoting efficient lighting that benefits human comfort, safety and well-being, and the environment. LightingEurope advocates a positive business and regulatory environment to foster fair competition and growth for the European lighting industry. More information is available at www.lightingeurope.org.
